RE: Letter of Recommendation

We are pleased to recommend Peggy Collins and PowerCurve, Inc. They served as our Media Relations Coordinator for our 2008 Pinellas Living Green Expo and we look forward to their assistance once again for 2009.

They drafted press releases, produced advertisements, radio spots and television commercials to help us promote the 2008 Pinellas Living Green Expo. In addition, they secured media sponsorships from newspaper and television organizations that were instrumental to the success of our Event.

The "Green Q-Tips" that ran on Q-105 radio are an excellent example of their clever and creative approach to promoting our Expo and, at the same time, delivering a meaningful message.

PowerCurve brings the kind of enthusiasm and creativity that makes working with them a pleasure. Their professionalism has assured timely, high-quality results.

We highly recommend both Peggy Collins and her Company, PowreCurve, Inc. Please feel free to contact us for additional information.

Sincerely,

Steve Plice
President
